

# SOURCES OF POLLUTION IN PRINCE GEORGE'S COUNTY

Chesapeake Bay Watershed Model 5.3—2011 Progress Run Edge of Stream Load Estimates

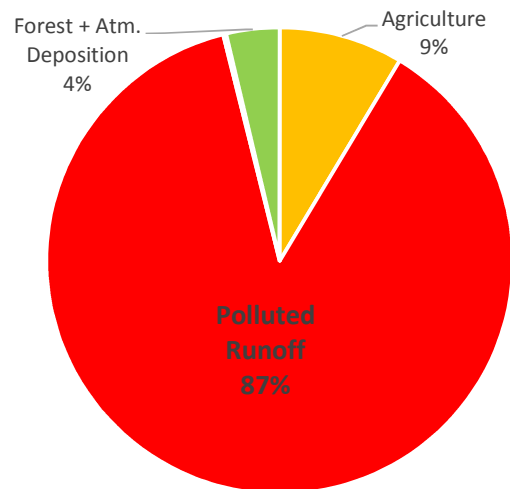

## Anacostia River – Maryland Portion

The Anacostia River is polluted by nitrogen, phosphorus and sediment, and is listed on the Maryland Department of the Environment's impaired waters list, meaning it does not meet the water quality standards for its designated purpose. Almost half of the Anacostia watershed is located within Prince George's County.

### 2011 Progress Run Modeled Loads Nitrogen (lbs)

### 2011 Progress Run Modeled Loads Suspended Sediments (lbs)

### 2011 Progress Run Modeled Loads Phosphorus (lbs)
