

The Chesapeake Bay Foundation invites you to join us for a Professional Development Program:

What: One-day Teacher Workshops in Maryland and Virginia

From classroom curricula to feeling comfortable taking students outside to directing students' knowledge and energy into action projects, attending a one-day workshop will help you integrate the environment into your own classroom.

Field-Based Investigation - Learn to connect watershed investigations, teaching methods, and inquiry-based lessons.

Oct. 5 – CBF's Clagett Farm in Upper Marlboro, MD

Oct. 20 – VCU Rice Center in Charles City, VA

Curriculum Training - Gain the skills necessary to teach students how to investigate watershed problems and develop solutions.

Oct. 26 – CBF's Philip Merrill Center in Annapolis, MD

Feb 28, 2012 – VCU Rice Center in Charles City, VA

Student Action Training - Learn to motivate students to plan hands-on projects that restore the Bay's natural resources, guiding them through the process from idea to successful project.

Sept. 20 – VCU Rice Center in Charles City, VA

Nov. 16 – Philip Merrill Center in Annapolis, MD

Credit: Three MSDE recertification credits are available by attending all three workshops and completing a follow-up project. See website for details.

Cost: \$50 for each workshop. Call to pay by credit card or mail cash or check to: Chesapeake Classrooms, 6 Herndon Ave., Annapolis, MD 21403

How To Register: Email your contact information to chesapeakeclassrooms@cbf.org or call 410/268-8816

The Chesapeake Bay Foundation's Education Program is supported by the National Oceanic and Atmospheric Administration (NOAA) BWET Program and the National Geographic Education Foundation.
