

CHESAPEAKE BAY
FOUNDATION

Saving a National Treasure

LEARN OUTSIDE

Pennsylvania Rivers & Streams Environmental Education Program

Multiple locations throughout central Pennsylvania

The Chesapeake Bay Foundation provides engaging student programs designed to enhance and supplement classroom instruction. Join us on the PA Rivers & Streams Environmental Education Program for a canoe-based exploration of local waterways in central Pennsylvania. Students conduct macro-invertebrate surveys and water chemistry assessments to examine the effect of agriculture and other human impacts on water quality.

CBF Education is committed to growing connections between students, teachers, and

school administrators to their environment.

Program activities are designed to correlate to state learning standards. Whether through art, math, history, science, or social studies— our approach actively engages students in critical thinking on relevant real-world local environmental issues.

Concepts
